

# VISUAL ARTS DIARY

## OVERVIEW: 10 ART SUPPLIES FOR A VISUAL ARTS DIARY

Below is a list of some common art supplies that are perfect for use in your visual arts diary (VAD). There are many more supplies that you can use in your VAD, however, the list below will get your started!

A visual arts diary can include various paper or substrate types. The substrate you use should suit the art material that you use. Some art materials are dense and wet, and therefore require a thicker substrate, however, lighter materials such as a pencil may only require a lighter substrate or paper in your VAD.

A visual arts diary that contains Mixed Media Paper is usually the most useable type of paper that can handle both dry materials and wet materials.
